Let's look at section 8

Hand-inn deadline 21/3 (14.00)

Make a program with these minimum requirements:

HTML, CSS file and JS file must be separated into 3 files.

The program should have at least 7 different elements
e.g. buttons, text, list, div, submit

All seven elements should 7 different events
e.g. key events, click events, mouse over, document load etc.

The 7 different events should manipulate 7 different divs or other html elements

Be creative, make something you enjoy :)
